

DSP EXCLUSIVE ART, TEMPLATES AND THEMES

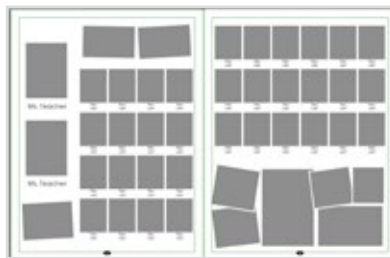

New DSP Art added regularly. See all of our exclusive art by navigating to DSP Art from the design panel.

DSP BASIC TEMPLATES

Our basic templates allow you to start with a simple layout and add your theme to your yearbook. We have included templates for staff pages, student portraits, clubs and sports, as well as candid/collage pages to make it easier for you to build your book. You can find these templates by navigating to [Art>DSP Art>Templates>DSP Basics](#). Or searching for “DSP Basic”.

PATTERN TO BE USED AS ADDITIONAL BACKGROUND OPTION

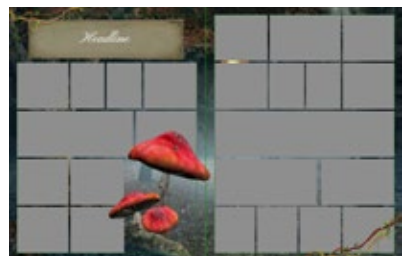

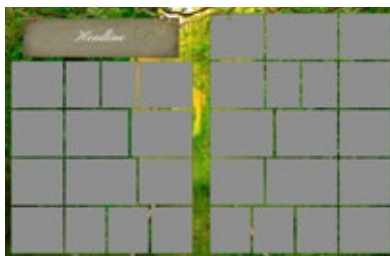

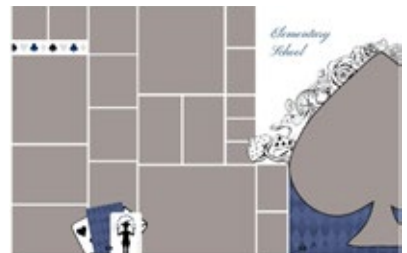

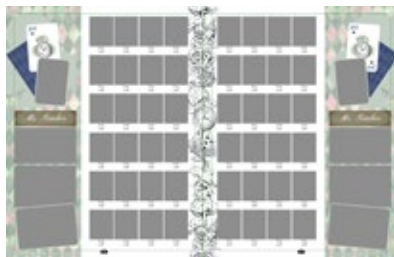

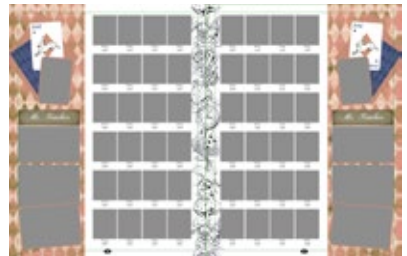

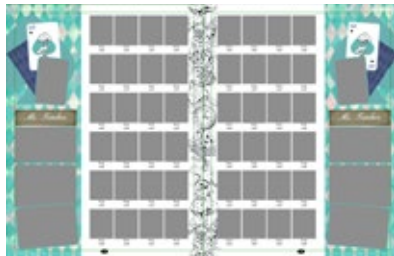

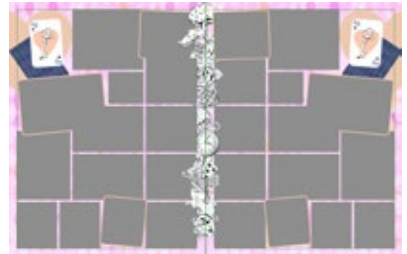

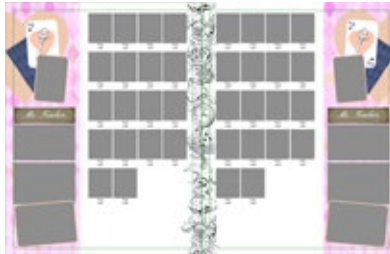

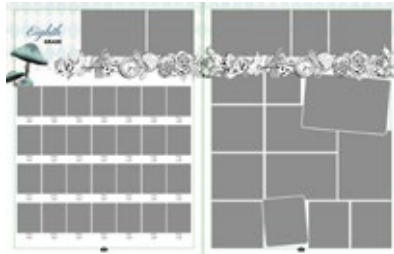

GRAPHICS

The Wonderland Theme is inspired by Alice's Adventure in Wonderland, a whimsical and curious theme. You can find our Wonderland Templates by searching "wonderland" or navigating to Art> DSP Art> Templates> Wonderland.

WONDERLAND THEME

OTHER DSP ACCENTS

You can use these accents to build your own themed pages for your yearbook. Find additional accents by navigating to **DSP Art**> **Accents** and finding the themed folders.

USING BASIC TEMPLATES + DSP ART

To use our art with the DSP Basic templates, you first navigate to a blank page in your yearbook. You can then, go into design mode and search “DSP Basics” in your search bar. Choose a template that works with your ladder plan and drag the template onto your page.

Now you can begin adding backgrounds and changing fonts to match your yearbook theme. In this example, we have chosen to re-create the outer space theme. We navigated to DSP Art > Backgrounds > Outer Space and dragged on a space themed background.

After adding the background and changing the fonts and colors to match our theme, we can now begin adding design accents to our spread. We have chosen a planet to put in the background of the layout. Once you drag and drop your accent, in the properties toolbar, find the “send to back” icon to place it behind the teachers name.

Lastly, we added a little astronaut on the bottom near the candid to enhance the space theme in our layout. Now this page is ready for teacher and student portraits.

***NOTE:** You can also start with an existing themed template and edit it to your preference.

New DSP Art added regularly. See all of our exclusive art by navigating to DSP Art from the design panel.
